FIBER SOLUTION

SCALING AI & NEOCLOUD INFRASTRUCTURE GLOBALLY

Fiber Solution Consulting's combination of engineering expertise, carrier neutrality, and global reach enables customers to confidently deploy and scale the next generation of AI, cloud, and digital infrastructure environments.

WHAT YOU NEED FROM US

Dark Fiber
Wavelengths from 100G to 1.6 Tb/s for AI-scale transport.

Data-Center Interconnect
Diverse carrier paths that keep GPU clusters online.

Dedicated Internet & IP Transit
High-throughput access for demanding workloads.

Rapid Circuit & Data Center Sourcing
Fiber lines, data centers, and rich map overlays, all in one place.

DDoS Mitigation & Security
Network-level protection built in, not bolted on.

Colocation
Power and cabinet space across global sites.

SD-WAN & SASE
Secure, flexible connectivity across markets.

Connectivity Alternatives
Carrier diversity across providers and markets.

Carrier Contract Negotiation
Better rates, terms, and expense optimization.

Managed Network Services
Day-to-day operations handled for you.

Telecom Expense Mgmt
Ongoing cost control across every carrier bill.

Global Connectivity Procurement
One process to source across every region.

CARRIER NEUTRAL CONNECTIVITY

Fiber Solution Consulting helps AI infrastructure providers source and manage carrier-neutral connectivity across hundreds of telecom providers. Rather than being tied to a single carrier, we identify the best combination of fiber, internet transit, wavelengths, DCI, cloud connectivity, and redundancy to improve performance, reduce costs, and accelerate deployments.

ENABLING THE HYPERSCALE DATA CENTER

By combining engineering expertise, extensive market reach, and carrier-neutral design, Fiber Solution Consulting enables the customer to rapidly deploy and scale critical infrastructure while maintaining the availability, performance, and resiliency required for mission-critical compute environments.

Sourcing & Planning

- Track vendors' upcoming data center builds
- Flag new locations and sites in the pipeline
- Help clients plan ahead instead of reacting later

GLOBAL DIGITAL ASSET AND AI INFRASTRUCTURE PROVIDER

Leveraging relationships with more than 700 carrier and infrastructure providers, Fiber Solution Consulting assists with network strategy, carrier identification, meet-me-room planning, route analysis, access coordination, and infrastructure feasibility assessments during the design and construction phases.
